

Please leave New Jersey's "Do Not Call " law alone. Since the law was enacted I am finally able to spend a quiet evening at home without answering computer generated sales calls for products I have no interest in. Before the law took effect, I sometimes would come home from work and have as many as 12 to 15 messages on my answering machine and many more while I'm at home in the evening trying to relax.

Give some weight to the comfort to the consumer, not just to business.
